The Green Light—located in the upper right corner of the screen—illuminates once a student answers a certain number of facts correctly on a given day. This indicates completion of a good day's practice toward building math fact fluency. The Green Light is a daily event, not tied to a single session. If a student does not achieve the Green Light in their first session of the day, they can log in later to build on the progress already made.

Students can only earn one green light per day!
